Introduction to R for Ecologists (REcol)

R語言在生態學的應用

EEB5082 (B44U1940)

- About the class
- Links to study materials
- Example datasets

Tutorials:

- How to install R and RStudio
- Importing data into R
- Install and load R packages
- Reproducible R script
- Clean and tidy R script
- R constructs
- Plotting figures in R
- Graphical parameters
- Colours
- Linear regression
- R Markdown
- Parallelization in R
- Data manipulation (dplyr, tidyr)

Exercise

- Random walk

- Email etiquette
